

Office of the City Manager

City of Richland Hills, Texas

Memorandum

To: Honorable Mayor Bill Agan and members of the Richland Hills City Council
From: Eric Strong, Assistant City Manager
Date: June 14, 2013
Subject: Acquisition of Easements for Public Works Projects

City Council Action Requested:

Consider acquisition of easements for Public Works Projects

Background Information:

At the City Council meeting on June 18th, 2013, City Council approved bond funding for infrastructure improvements that include drainage and wastewater projects. In order to construct these projects, it will be necessary for the City to obtain both temporary construction easements as well as permanent easements from various property owners in the City. We have conducted appraisals on these properties and approached the property owners to discuss obtaining the necessary easements. Staff would like to provide you with an update on these discussions with property owners and, where appropriate, request Council consider moving forward on acquiring the necessary easements.
