

Office of Scott Mitchell, Neighborhood Services

City of Richland Hills, Texas

## Memorandum

To: Honorable Mayor Bill Agan and members of the Richland Hills City Council  
From: Scott Mitchell, Director of Neighborhood Services  
Date: December 31, 2013  
Subject: Purchase of CUES OZ3 Sewer Camera

---

### **Council Action Requested:**

Approve purchase of a CUES OZ3 Sewer Camera at a cost of \$32,000.00

### **Background Information:**

The sewer camera is used by the Wastewater Division personnel to perform inspections of sewer mains throughout the city to help locate and evaluate the areas that are in need repair and/or cleaning. The camera unit also aids in locating root permeation and other potential obstructions to aid in efforts to expedite repairs and to reduce and/or alleviate overflows of the city's sewer system.

The current in-service sewer camera was purchased in FY 06-07. Due to the heavy use of the camera, as well as the continuing evolution of technology, the expected life span of this type of equipment is five to six years. The current camera has experienced numerous mechanical and technical problems over the past year, increasing operational costs and causing the camera to be out of service during times of repairs.

CLS Sewer Equipment Company is the sole CUES factory authorized dealership for the State of Texas and submitted a quote of \$32,000. The purchase of CUES equipment will maintain the compatibility between new equipment and equipment already in service. Staff is recommending the purchase of the CUES OZ3 SEWER CAMERA with WTR track and Wheel Transporter from CLS Sewer Equipment Company in the amount of \$32,000. Funds for this purchase were approved in the FY 13-14 Budget.

**Board/Citizen Input:** N/A

**Financial Impact:** \$32,000
