

Office of the City Manager

City of Richland Hills, Texas

Memorandum

To: Honorable Mayor Bill Agan and members of the Richland Hills City Council
From: Eric Strong, Assistant City Manager
Date: February 4, 2014
Subject: Update on Amendments to Code of Ordinances

Council Action Requested:

No action requested, discussion only regarding update on amendments to Code of Ordinances, including zoning, construction and other life safety codes.

Background Information:

At the City Council meeting on January 21, the Council approved updates to all of the International Building Codes except the International Fire Code. We had originally intended to bring the Fire Code before Council for consideration at the meeting on February 4th. However, the attorney requested additional time to review, so we will instead bring it forward on February 18.

In addition, I also intend to provide you a brief update on the progress that the Comprehensive Plan Steering Committee has made recently, and the subsequent next steps that will involve both the Planning and Zoning Commission and the City Council.
