Linda,  
I'll send this info for your question:

Anne Bruton:

We have lived in the city for 46 years, 3 children graduated our schools and have gone on to make their own lives. Countless changes have taken place in these ongoing years, in the workplace and the City, as many of you know and have seen.

I continue to be amazed by it all.

Changes, as well, in the Community Center. But, the pleasure most received by me is the happiness and laughter heard from the people taking advantage of activities at the Center.

At present, classes are growing. Word of mouth is encouraging others to be a part of this laughter and get started exercising in the process. Laughter is an exercise in itself and many need outlets among others, so the Community Center fills many needs.

Not being on site when the building is rented, I'm still aware of the happiness that is experienced through rental activities as word gets back or calls come in later thanking us for the use of the facility and for being available. May we continue to have a place that brings joy to so many lives.

Thank you for a place of employment that has brought joy to my life through 25 years of service to the City Richland Hills,  
joy that overshadows any confusion or problems in this span of years.
